RUBINETTERIA BAGNO

Serie MAYA

La serie MAYA dispone di una particolare tecnologia per l'ottimizzazione dell'efficienza energetica:
LIMITATORE DI ENERGIA: Apertura dell'erogazione dell'acqua fredda con leva in posizione centrale, evitando l'accensione involontaria della caldaia. Inserito sugli artt. 3008001, 3008002, 3008003, 3008010.

LIMITATORE DI TEMPERATURA: permette di decidere la temperatura massima dell'acqua.

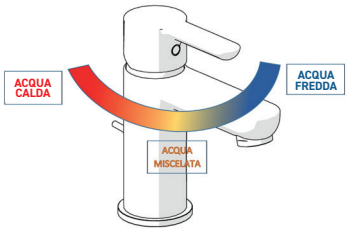

REGOLATORE DINAMICO DI PORTATA: blocca l'alzata della leva al raggiungimento della metà della portata, riducendo il consumo del 50%.

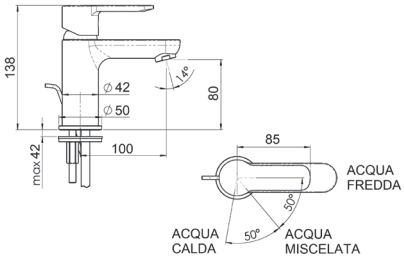

CARTUCCIA D. 35 mm A IMMERSIONE TOTALE: diminuisce l'usura meccanica della cartuccia

LAVABO
